Kitchen / Bathroom / Utility / Laundry
Autumn 2023

Joseph® Joseph

CELEBRATING 20 YEARS OF INNOVATION

Our founders, twin brothers Antony and Richard Joseph, started Joseph Joseph with the aim of revolutionising tasks around the home and making every day more efficient. Our first product was a simple glass chopping board, but we've conquered many areas of the home since then. This year, we're proud to celebrate twenty years of innovation! Here's a recap of some of our proudest achievements over the past two decades and some clever new inventions in the pipeline.

From an early age, Antony and Richard enjoyed making things. The brothers grew up in a family with a history of design and manufacturing. Together, they would spend part of their summers working in a glass components factory set up by their grandfather in the 1930s and went on to train in product design.

In 2003, the brothers launched a bold range of contemporary glass chopping boards. But what started as a fun project soon became an innovative business venture. Using simple observations and intelligent thinking, Antony and Richard discovered they could improve many tasks around the home. The Joseph Joseph brand was born! The team quickly grew, and we moved into our first office in London's iconic OXO Tower.

We soon expanded overseas and launched Chop2Pot™, our famous folding chopping board. It received great acclaim, and other innovative kitchenware products soon followed. Today, our distribution includes the USA, Australia and Japan, and over 30 other countries.

Growing consumer focus on sustainability and recycling in 2011 inspired us to get creative with waste. The result... Intelligent**Waste™**, a range of smart waste and recycling bins that sought to streamline how we take out the trash. We also moved into stylish new offices near the Tate Modern gallery, another London icon.

In 2017, we were honoured to receive The Queen's Awards for Enterprise in International Trade, presented by HRH The Princess Royal. The prestigious programme celebrates British businesses that excel at international trade, innovation, and sustainable development. Our Totem waste separation and recycling bin won the Innovation prize the following year.

We turned our focus to storage and organisation in 2019 with the launch of our popular DrawerStore™, CupboardStore™ and Folio™ ranges. Through forward-thinking design and robust materials, these clever solutions utilise every inch of the kitchen.

Using simple observations and intelligent thinking, Antony and Richard discovered they could improve many tasks around the home.

More recently, we turned our attention to laundry with a new category featuring our easy-store Glide and Pocket ironing boards and easy-empty Tota laundry baskets. It quickly breezed to the top, becoming our most-loved category to date. We have even more designs and fresh colourways on the way. And we have no plans of slowing down. This season, we're launching a new floorcare category featuring hygienic, wall-mounted designs that completely rethink how we clean and store. We're also introducing new Elevate™ Fusion, clever cooking tools designed to expand the palette and streamline mealtimes.

Twenty years is only the beginning—we're just getting started. We hope you'll join us for the next twenty and beyond.
