Spring 2021

It all started with a chopping board.

Twin brothers, Antony and Richard Joseph, grew up in a family with a long history of design and manufacturing. Originally set up by their grandfather in the 1930s, the family business specialised in the production of glass components and the brothers spent part of their summers working in the factory.

In 1999, having both trained in product design, the twins embarked on their early careers. As a sideline to their jobs, and with the support of their father, they utilised the capabilities of the factory in Birmingham to develop their own range of contemporary glass chopping boards.

But what started out as a fun project soon became the seed of a new business idea. After early success with their bold, colourful designs their entrepreneurial spirit kicked in and, in 2003, the Joseph Joseph brand was born.

Whilst glass chopping boards were just the start, the brothers were also designing other innovative kitchenware products and this gradually developed into a broader range of housewares.

What quickly became a key foundation of the brand was a simple observation - many tasks around the home could be made much easier and more enjoyable with a little intelligent thinking. It was this problem-solving approach, and the ability to combine it with a distinctive design aesthetic, that created some of their most iconic kitchenware and has made Joseph Joseph one of the world's most progressive houseware brands.

There's something special about a Joseph Joseph product that sets it apart from the competition. First it engages you with its distinctive design; then it captivates you with its functional benefits; finally, it assures you with its high-quality materials and attention to detail.

Joseph Joseph's ability to blend innovative design, contemporary styling and a distinctive use of colour is unique within the industry. While many brands concentrate on just one of these aspects, Joseph Joseph focuses on the whole user experience - creating products that work beautifully and are a pleasure to have around the home.

Since 2003 the brand has expanded successfully into many product areas and it continues to explore new houseware categories. It may have all started with a simple glass chopping board, but Joseph Joseph is now one of the fastest growing companies in the worldwide housewares market and it continues to earn accolades and awards for its unique, innovative designs.

Small space. Big challenge.

When it comes to cleaning and organisation, the smallest room in the house can often throw up the biggest challenges.

Daily personal hygiene routines all create mess and require a wide variety of toiletry and grooming items to perform. Limited space, permanent wet zones and hard-to-clean areas are just some of the problems faced.

Bathrooms can easily become messy, disorganised environments and there's no shortage of products available to help. But do any of these items really address the problems or merely add to it?

At Joseph Joseph we don't just design products for the sake of it. Everything we create has to solve a common problem found in the home, making everyday tasks easier, quicker or more enjoyable to perform.

Our research in the bathroom category showed us quite quickly that the most common problem areas were:

- Storage & organisation
- Cleaning & hygiene
- Waste & recycling

With this in mind, we set about creating a range of products that would provide some truly innovative solutions to these challenges. You'll find the fruits of our labour over the following pages and we hope they inspire you as much as they do us.

It's all part of our mission to create desirable products that enhance everyday life and that stay true to our philosophy of creating Brilliantly Useful Design.
