Moments to share

As we open the doors to a new spring and summer, we are greeted by a warmth that fills every corner of our homes. Once again, we focus on creating shared moments, both indoors and outdoors, making them the heart of our work as we look ahead.

Sagaform novelties

We set the table in the garden or by the dock, picking flowers, cooking, and decorating with care to create moments for ourselves. Beige stoneware paired with denim napkins makes us want to stay outside and watch the boats glide by under the night sky.

Our shared moments have moved outdoors again, for Easter, Midsummer, and other celebrations we enjoy together. The colour palette is soft and comforting, yet fresh and vibrant. Various shades of blue mingle with olive green, sunny yellow, and a softer black, providing contrast against light wood tones. The entire collection feels like a watercolour painting, where we savour the moment and collect memories. Summer 2025 is a time to pause and appreciate one another.

Our materials—stoneware, crystal glass, recycled cotton, recycled steel, rPET, and more—reflect our

ongoing commitment to sustainability. We continue to prioritise sustainable, eco-friendly choices wherever possible.

As we gradually transition to more recycled materials in our collections, we take pride in driving progress forward, choosing alternatives that respect our planet. Three key collections at the centre of this spring's assortment embody this vision: Billi in rPET, City Bags in rPET, and Tova & Ted in recycled stainless steel, three collections that light the way forward. We hope they accompany you on your journey, creating many moments to share along the way.

In this first section of our spring and summer catalogue, you'll find a curated selection of our novelties, giving you a complete view of this season's collection. This is followed by the full Sagaform collection of Swedish originals. Enjoy the read!

Sustainability is the future

It should be easy to make good choices, which is a key part of the development of our sustainability work. At Sagaform AB, we put great emphasis on sustainability in our processes and take responsibility for how our operations affect people and the environment. Of course, we hope that you are satisfied with your purchased products but also with us as a company.

As part of the New Wave Group, we pursue active sustainability work towards a vision of sustainable growth where business solutions are not only financially favorable but also sustainable from a social and environmental perspective. What makes the biggest difference is how we conduct our everyday business. That is why we are working to integrate sustainability issues into our core business. The work includes, for example, improved working conditions in production countries, progressive chemical work, and streamlining transport and logistics.

Our common main goal with the sustainability work is to create products with the longest life possible, to minimize the product's negative impact on people and the environment during its life cycle. In our work, we take into account all three dimensions of sustainability -social, environmental, and economic.

One of our strengths is that we have our own CSR staff in place in the production countries who work full time on these issues. The work includes, for example, improved working conditions, progressive chemical work, and streamlining transport and logistics. Through internal controls in combination with

independent reviews, we make sure that our products are produced under good social conditions and do not contain any harmful chemicals. Do you want to know more? Please browse our Sustainability folder which you will find on our website under Sustainability. There is an interesting read about all our CSR work through the New Wave Group.

You can also read more about how we work with CSR and sustainability on the parent company's website www.nwg.se. There we have gathered all information about important activities, collaborations, and goals for the future.

Give away a Swedish Original

At Sagaform we care about relationships. That is why we always regard our design as a great gift to someone we love but also for ourselves. The gift should be easy to give away with the purpose to raise many smiles on the receivers' faces.

Classic Scandinavian design in combination with carefully chosen details radiating stylish simplicity characterizes what we call Swedish Originals. Functional quality products caring about the familiar and which are created to be used and appreciated in many homes by many families for a long time to come. All of them packaged in a way which is appreciated and received just as they are.

Studio Sagaform

In our studio ideas are brought to life and dreams are shaped. Here we sketch on possibilities, design future originals and bring forth products which always find their way home. We are really proud of our inhouse studio where we combine experience with engagement and loyalty to Swedish design.

Designers

We also work with Sweden's leading designers, with whom we create familiar, well-made products and gifts with Scandinavian design, always ready to be given away. Together with names like Margot Barolo, Anton Björnsing and Pascal Charmolu along with many others we are proud of our heritage. Always with a focus on Swedish Originals.

Gift Packaging

Of course, we take care of the packaging exactly as you want it and have developed all the elements we think are essential to complement an already great gift. Here, you will find boxes and bags in different sizes. We also offer gift wrapping, cards, labels, or a strap on the product, if desired.

Handling

Would you like us to send your gift directly to the recipient? We can do that for 85 SEK each, including handling, packaging, materials, and postage.

Decoration

To us decoration should be classic, have a great function and always be appreciated to receive or give away. Here you will find products which both take up space and harmonize with the Scandinavian design.

Viva family

Like a newly emerged flower it unfolds its leaves. Viva flirts with us in a seductive way – the organic shapes and the discreet power.

Viva collection consist of vases in three sizes and beautiful candle cuffs. Viva is made of glass and comes in three colours – clear, amber and bordeaux. Handmade and mouth-blown, sizes and shape may therefore vary.

Mini vase Viva and Small vase Viva is perfect for cuttings or a small bouquet. Large vase Viva flourishes like a statuette with and without green leaves and flowers.

Saga

Saga glass series is an important piece in our family of Swedish Originals. As the name reveals, we are extremely proud and sure of Saga being a part of our family for a long time forward. This is a classic glass series including wine glass, champagne glass, drinking glass and a carafe, all of which will take their special place in the kitchen cabinet. With its characteristic striped stem, on all of the parts, it stands out as well as blends in. Saga is perfect for the morning juice or the pancake milk, but it also has the power and strength to highlight any party dinner table in an extra festive manner. Saga can easily be mixed with what you already have and is a perfect gift and a desirable series to collect. Quite simply, a Swedish Original.

Inka cup

Inka cup with and without ear are thoughtfully designed mugs, perfect for everyday life at home or the office. Both styles are stackable and come in soft, nature-inspired tones, bringing a touch of elegance to any setting. With their rounded bases and Sagaform's signature striped rims, they offer a beautiful contrast of shapes. The Inka with ear provides added comfort, while the handle-free option complements it for versatility and easy stacking. Practical drainage channels in the base prevent water collection in the dishwasher.

Coffee & More

Coffee & More is a playful and versatile series produced by Sagaform in collaboration with designer Margot Barolo. The design draws inspiration from the bold and direct language of the 70s, creating a mix-and-match aesthetic that brings joy to any setting. This season's addition in a soft beige tone beautifully complements the existing colours in the series, while also standing out on its own with its nature-inspired warmth. With various pieces, patterns, and colours, each part of the Coffee & More series has its unique charm—perfect mixed together or as standout pieces.

Made of stoneware, dishwasher safe, and packed in a beautiful Sagaform box.

Margot Barolo

Designer Margot Barolo was educated at Beckmans and also has a master's degree in ceramics from Konstfack. She has for a long time successfully worked with the Swedish art industry and during recent years also started challenging the picture of the production around this. Margot Barolo's unique design language and her love of ceramics shows in Coffee & More, the dinner service designed for Sagaform. Included in the series are stackable bowls, coffee cups, latte mugs and plates with inspiration from the 70's and its passion for ceramics with straight lines broken off by a multitude of patterns and playfulness. Her design language is tied together in peaceful nuances, high-gloss glazing and ornamented throughout in relief.

Astrid

Astrid is a series of classic kitchenware in a modern and conscious version. A series which combines function and design in the very best way. The blades of the series are made of stainless steel and the handles of beautiful, chocolate-brown wenge wood. Wenge wood is heavy, durable, shockproof and moisture resistant. Also, it's lively-looking and lovely with its decorative veining. The combination wenge wood and stainless steel is an exciting contrast between hard and soft, a classic with a tougher touch. Series Astrid is definitely a Swedish Original which never goes out of fashion.

Tradition

We care for Scandinavian traditions and the familiar feeling of experiencing them together. Under “tradition” you will find the products which create that extra spark to get in the mood for that season’s special traditions, like for example easter holidays.

Ellen Easter collection

Traditions, big and small, are important to us at Sagaform, which our stoneware series Ellen shows. Here you will find products for our most beloved traditions like Christmas, Easter and Midsummer, but also for the lovely everyday traditions like morning coffee in bed or the Friday fika (coffee moment). Cups, mugs, bowls and storage products made of stoneware in stylish design with billowing stripes in nature-inspired colours.

Outdoor living

Nature is important to us and also how we live in it. In this category you will find everything you need to really enjoy the Scandinavian nature, whether it's in the forest, on the terrace, on the road or at sea. Functional, durable and familiar are the keywords when we have developed this category and its products.

Doris enamel

The favourite Doris unites utility with pleasure, or rather design with function. Here it is the material which provides character. Enamel is durable, doesn't weigh much and with its capacity to withstand heat up to 225 degrees from an open fire, induction or in an oven, it becomes as functional outdoors as stylish looking indoors. The design is timeless with a discreet splash pattern. A classic, multi-functional and durable series containing mug, bowl, plate and pan in two sizes. Doris is available in black, green and beige. Withstands machine washing in upper basket on low temperature.

Made in Enamelled carbon steel and designed by Studio Sagaform. Don't use sharp items in the pan.

What is rPET?

rPET stands for "Recycled Polyethylene Terephthalate". PET is a type of thermoplastic polymer used to manufacture many common products, such as plastic bottles for beverages and food packaging. rPET is simply recycled PET plastic. It is produced by recycling used PET products from the consumer stream, primarily plastic bottles. The process involves collecting plastic bottles, crushing them, and melting them down to create new plastic material. The recycled material can then be used to manufacture a variety of products, including bottles, packaging, textiles, and other plastic products. In this case, Billi.

Why do we use rPET?

The use of rPET plastic in products has several advantages, in our opinion. By recycling plastic bottles and other PET materials, the need to produce new plastic is reduced. This saves energy and reduces the amount of waste. The production of rPET plastic also requires less energy and resources compared to producing new plastic. By recycling and reusing plastic materials like PET, the concept of circular products and systems is promoted, where products and materials are reused instead of being discarded.
